

Dear Mr. Fleet and Mr. Cardine.

It's been some time since our victory and wish to say thank you so very much! for your believing in Harry's cry for help and you believed in him and helped him. It's just so disheartening, a constant ache for Harry and all of our family. I feel so horrible for my son that we did not see this period happening. Mr. Fleet you and your associate have brought some justice for Harry and our family and you don't know the magnitude of that and I thank you so much from all of and from the bottom of our hearts. Also for other children that this individual may have or could harm in the near future. We cry remembering the day they retained Mr. Kenney and did get an admission and the states attorney refused the case. We walked out with our hearts in our hands and heads to the curb so this is truly a great victory and your such an inspiration for my son and all we thank you, so very very much!

Harry's mother Dolores,
Lorry and Family.
